DEVELOPING TOMORROW'S TALENT
Internship Toolkit
PURPOSE:
AN INTERNSHIP TOOLKIT TO HELP ORGANIZATIONS DEVELOP TOMORROW’S TALENT
The number one resource every company needs is great talent. In Broward County, there are many options for local companies to grow and sustain the talent pipeline.

This toolkit offers all the steps needed to plan and execute an exceptionally high quality internship program that will bridge the skills gap and develop tomorrow's talent.
To Our Valued Community Members

The South Florida business climate is experiencing both exciting growth and rapid evolution. Traditional markets are expanding, with new revenue streams and resources becoming available through international and virtual client opportunities. These opportunities come with a higher demand for advanced labor market skills in emerging technologies.

At Broward College, evolving employer requirements are under constant consideration as we adjust our curricula to meet the growing workforce needs. With the Florida 2030 report projecting growth in information technology/cybersecurity, healthcare, environmental science, and aviation/aerospace, the College has added in-demand degrees in STEM, Transportation, and Business. Another Broward College strategy is to embed technical certificates within our degree programs, helping students get certified even before they complete their studies.

To address these changes, employers will need access to a talent pipeline which is strategic and deliberate. Internships provide employers access to the next pool of talent. The quality of our programs and the training we provide are strengthened by our partnership with the business community to offer internship and on-the-job training. This ensures that students who are first generation, non-traditional, and from underserved communities not only succeed academically, but also thrive in their field of employment and provide immediate value to their employers.

By investing in our future today, the South Florida business community can take full advantage of all the opportunities this rapidly evolving business climate offers, while minimizing challenges and empowering our local workforce. In collaboration with the Broward Workshop, CareerSource Broward, the Greater Fort Lauderdale Alliance, and other post-secondary educational institutions, Broward College has developed this toolkit to offer businesses a step-by-step guide for implementing a best-in-class internship program.

Broward College looks forward to partnering with you as we build our future together. Please contact our team at (954) 201-7547 to learn more about the Broward College internship program and get started today.

Sincerely,

WHAT IS AN INTERNSHIP?

A **high-quality internship** is a paid, pre-professional learning experience which offers meaningful, practical work experience related to a student’s field of study or career interest and a chance to learn new skills.

Research shows that 85 percent of companies use internships and similar experiential education programs to recruit for their full-time workforce.

*Source: career-advice.monster.com*

What are the benefits?

**For Employers**

- Internships help build relationships with specific schools and career centers to create a pipeline of skilled talent for future recruitment.
- Internships extend the interview process and evaluate skills, work ethic and assimilation into the culture.
- Internships are an excellent way for employers to give back to the communities they service by allowing experienced professionals the ability to share their skills and cultivate the next generation of leaders in their field.
- Internships are a great way to test drive talent and increase employee retention rates.

**For Students**

- Internships provide an opportunity to discover whether a career path or field of study is a match.
- Internships help obtain valuable experience, gain specific field-related exposure and make important connections for the future.
- Internships help students develop the soft skills necessary for success in today’s work environment.
- Internships offer an opportunity for summer income.
- Most importantly, an internship can lead to a full-time position.
The skills gap is a serious problem in today’s job market. Businesses lose $14,000 on average for every job that stays vacant for three months or longer.

5 EASY STEPS TO IMPLEMENTING YOUR INTERNSHIP PROGRAM

- Assess & establish goals for the internship program
- Develop the internship opportunity
- Recruit a qualified intern(s)
- Manage the intern(s)
- Conduct exit interviews and follow-up
ASSESS & ESTABLISH GOALS FOR THE INTERNSHIP PROGRAM

1. Do you have difficulty finding qualified new employees?
2. Does your organization require skills or talents that are typically not learned in the classroom, such as:
   • Software or hardware skills
   • Research or process skills
   • Client or customer interaction
3. Do you have new company initiatives that would be a good fit for an intern?
4. Will existing resources, equipment, and accommodations be sufficient for the intern?
   • Do you have available workspace and parking?
   • Will you need to purchase software or equipment?
5. Do you have appropriate personnel to oversee interns?
   • Depending upon the type and size of the business, interns may report directly to the owner, manager, or to another individual in the organization
   • For more than two interns, consider assigning an intern coordinator to manage activities
   • Each intern will report to their individual supervisor or mentor

Paid Internships

Compensation offered is influenced by many factors including industry, workforce needs and other company-specific criteria. Practical considerations weigh heavily in favor of providing paid internships including:

• Employers are encouraged to compensate interns fairly.
• An internship should be viewed as a valuable investment in building a pipeline of talented, young professionals.
• Paid internships result in more beneficial work production than course credit based internships.
• Offering paid internships will help make the organization more competitive and aid in attracting a broad pool of high quality candidates.
• Pay makes it easier to place expectations on, and require specific deliverables, from interns.
• Interns classified as employees, according to the Fair Labor Standards Act, must be paid at least minimum wage.

Course Credit

Varying stipulations apply to offering academic credit. Each school has individual requirements for employers regarding course credit. Employers should contact the career center offices at the institution in question to determine internship requirements and assistance. (see page 26 for contact information)
5. **How will the intern interact with other employees?**
The internship should allow students to get an understanding of the organization's operations. Interaction enhances both the intern and the employee experience.

6. **How will the intern performance be evaluated?**
A midpoint and end-of-internship review is important for the student to learn from their experience. If the student is receiving course credit, ask if the college/university requires a specific review form.

7. **How much time will the intern be expected to work per week?**
It is important to set clear expectations. Will the intern work during a semester or the summer? Will they work during the regular work day, or after hours?

8. **What will the intern be required to wear?**
Provide specific details on acceptable dress in your organization (e.g. no jeans, shorts, tank tops, etc.).

1. **What are some of the intern’s daily duties?**
Every intern should be provided with a list of basic duties.

2. **Is there a special project the intern will be asked to work on?**
It is important for interns to understand and participate in the day-to-day operation of the organization, but when the opportunity is available, the employer should create a "special project" that is relevant and can be accomplished during the internship. Employers should seek projects which use the talent, skills and enthusiasm of the intern such as research projects or in-depth analysis regular employees may not have time to tackle.

3. **What skills or level of education will be required?**
The employer will determine the criteria necessary to perform the job duties, including course requirements, grade-point average and preferred majors.

4. **Who will supervise/mentor the intern?**
Choose someone who can provide daily guidance and support to manage the intern.

HOW TO RECRUIT AN INTERN

Career/Internship Fairs

Campuses host career fairs multiple times throughout the year. Career fairs are great ways to meet potential candidates face-to-face, review résumés, and hold on-site interviews. The cost for employers to attend varies for each institution. The benefits of pre-screening and even hiring multiple qualified candidates returns a positive ROI.

Information Sessions

Presenting on-campus is a convenient way for students to learn about your organization’s internship and full-time positions. Info sessions provide the opportunity to introduce students to your organization, expose them to your brand, and inform them of open positions.

Social Media

Social media and instant messaging have changed the way students communicate and search for jobs. Inboxes are inundated and traditional recruiter emails can be overlooked. Leveraging online platforms like Twitter and LinkedIn is imperative for recruiting students.

Career Centers

An effective way to connect with potential student interns is to work directly with career services offices at colleges and universities. CareerSource Broward is an excellent resource for recruitment, and offers employers services free of charge. To post internship opportunities, visit: www.employflorida.com
MANAGING INTERNS

How interns are managed, monitored, and evaluated is unique to each company or organization. Establishing the job profile, expectations, guidelines for appropriate workplace behavior, attire and framework for communication throughout the process are important for a successful internship program.

Intern Orientation

It is very important that interns be warmly welcomed and introduced throughout the organization, just like a new employee.

An orientation provides the opportunity for:
- The employer to reinforce expectations
- The intern to ask questions
- The goals of the internship to be clearly established
- Review of company dress code and other policies

Dress Code

An organization’s dress code can be one of the biggest sources of misunderstanding and conflict for young people entering the corporate world. Dress codes are a key component of each organization’s culture and can be one of many ways an intern learns what is acceptable in the workplace. Provide specific guidelines for your interns during the interview or orientation process.

Intern Supervision

Supervision is an important component of any internship. Feedback begins the first day and continues throughout the length of the internship. The supervisor, mentor, or project team should review what is working and what improvements need to be made by discussing the following:
- Performance based on the job description
- Any additional training required
- Review of expectations

Feedback should be an ongoing formal process and conducted more frequently with interns. Suggested weekly review points include:
- Did you complete the action items assigned?
- Do you have any questions that came about as a result of this assignment?
- Ask and provide feedback to intern.
- Review next week’s assignments and due dates and make sure the intern has proper training for the new assignments.

Mentorship for Interns

The use of mentors can provide an invaluable resource throughout the internship. Mentorships contribute to intern motivation and performance and enable interns to acclimate more quickly to organizational culture.

Methods to engage mentors with interns:
- Introduce interns to co-workers and key contacts within the organization.
- Utilize the "buddy system". New interns benefit from peer mentors who can supplement formal training and accelerate their productivity and sense of belonging.
- Provide shadowing time for interns to observe how to manage time, people and resources.
- Include interns in staff meetings and related professional activities when possible.

Mentors must commit sufficient time to share their knowledge, teach skills and assist the intern in becoming part of the team. They also should have an interest in facilitating professional development. Strong mentors are typically good listeners who provide honest feedback, try to understand interns’ strengths and weaknesses and are concerned with professional and personal growth. Mentors serve as sounding boards and provide coaching and support.
People from varying generations have different personal and lifestyle characteristics which may determine how they respond to a particular management style. Consider creating an internship model based on the millennial generation’s characteristics before meeting intern(s) for orientation:

- Provide leadership guidance
- Encourage their “can-do” attitude and positive self-image
- Encourage them to join teams
- Embrace their interest in challenges
- Accept millennials will multi-task
- Capitalize on their knowledge of technology
- Provide opportunities for networking
- Provide a work-life balance through flexible scheduling
- Provide a fun, employee-centered workplace

EVALUATIONS

An effective evaluation will focus on initial learning objectives identified at the start of the internship. Supervisors should take time to evaluate both positive accomplishments and areas for improvement:

**Regular Meetings**
Provide regular check-in meetings to discuss status on a project, answer questions, discuss performance, etc.

**Final Evaluation**
As the internship comes to an end, a final evaluation offers an opportunity to discuss overall performance, accomplishments and opportunities for full-time positions with the company.

**Exit Interviews**
This best practice offers direct insight on ways to improve the program going forward.

**Intern Program Evaluation**
In addition to evaluating individual interns, companies with multiple interns may want to review the effectiveness of the program overall by comparing the following:

- **Applicants vs. Interviews = Effective Candidate Identification**
  - The difference between those who apply and those the company determines are the best fit for an interview.

- **Interviews vs. Offers = Effective Candidate Screening**
  - The difference between those who interview and those who are offered jobs.

- **Offers vs. Accepted Offers = Market Competition**
  - The difference between those who are offered positions and those who accept jobs.

- **Cost per Hire = Worth Company Investment**
  - What is the total cost for hiring one intern?

- **Conversion Rate = ROI of Program**
  - How many interns convert to full-time hires?

- **Retention Rate = Satisfied Interns and Staff**
  - Do your interns return for additional terms? Do your full-time employees who were interns stay longer than full-time employees who didn’t intern?

- **Quality of Hire (from manager perspective) = Meeting Your Needs**
  - At the conclusion of the internship, collect and review feedback from manager. Was this student a good hire? Would you recommend this student for future openings? Are there developmental areas for this student?

- **Quality of Experience (from intern perspective)**
  - At the conclusion of the internship, collect and review feedback from intern on his/her experience. Did intern gain valuable knowledge?

**THINGS EMPLOYERS NEED TO KNOW**

**Fair Labor Standards Act (FSLA)**

The determination of whether an intern is an employee for the purpose of the numerous state and federal employment laws is a legal and factual question. Although many state and federal laws define employees in similar ways, a determination that an intern is not an employee under one law does not necessarily mean that the intern is not an employee under another law.

The National Association of Colleges and Employers (NACE) developed the following guidelines to help employers determine if a relationship can be classified as an internship.

To ensure that an experience—whether it is a traditional internship or one conducted remotely or virtually—is educational, and thus eligible to be considered a legitimate internship by the NACE definition, all the following criteria must be met:

- The experience must be an extension of the classroom: a learning experience that provides an environment for applying the knowledge gained in the classroom. It must not be simply to advance the operations of the employer or be the work that a regular employee would routinely perform.
- The skills or knowledge learned must be transferable to other employment settings.
- The experience has a defined beginning and end, and a job description with desired qualifications.
- There are clearly defined learning objectives/goals related to the professional goals of the student’s academic coursework.
- There is supervision by a professional with expertise and educational and/or professional background in the field of the experience.
- There is routine feedback by the experienced supervisor.
- There are resources, equipment, and facilities provided by the host employer that support learning objectives/goals.
- There are clearly defined learning objectives/goals related to the professional goals of the student’s academic coursework.
- There is supervision by a professional with expertise and educational and/or professional background in the field of the experience.
- There is routine feedback by the experienced supervisor.
- There are resources, equipment, and facilities provided by the host employer that support learning objectives/goals.

Please visit the Department of Labor website if you would like additional information on FLSA: [http://www.dol.gov/whd/regs/compliance/whdfs71.htm](http://www.dol.gov/whd/regs/compliance/whdfs71.htm)

For additional information on non-discrimination laws and equal employment opportunity compliance (EEOC), visit the EEOC webpage for employers at [www.eeoc.gov/employers/index.cfm](http://www.eeoc.gov/employers/index.cfm)

In addition, rights and obligations of the intern may arise out of state or federal employment laws, including but not limited to Title VII of the Civil Rights Act of 1964, the Americans with Disabilities Act, and the Age Discrimination in Employment Act. Your existing company policies and benefits may also create certain rights and obligations.
Non-Discrimination Policy
The Federal Government has several laws that prohibit discrimination for employees. Employment professionals will maintain equal employment opportunity compliance (EEOC) and follow affirmative action principles in recruiting activities in a manner that includes:

- Recruiting, interviewing, and hiring individuals without regard to race, color, religion, national origin, sex, sexual orientation, age, veteran status, or disability, and providing reasonable accommodations upon request.
- Reviewing selection criteria for adverse impact based upon the student’s race, color, religion, national origin, sex, sexual orientation, age, veteran status, or disability.
- Avoiding use of inquiries that are considered unacceptable by EEOC standards during the recruiting process.
- Developing sensitivity to, and awareness of, cultural differences and the diversity of the work force.
- Informing campus constituencies of special activities which have been developed to achieve the employer’s affirmative action goals.
- Investigating complaints forwarded by the career center office regarding EEOC noncompliance and seeking resolution of such complaints.

**International Students**
There are several types of visas granted to international students, most of which allow the student to work off-campus. The office for international programs at the campus will be able to advise the student regarding his/her work authorization status and particular type of student visa needed. It is very important to start this process early as it takes about 4-6 weeks for the visa process to be completed. Employers should contact the International Student Office for assistance.

**Intellectual Property**
In some cases, interns may work on projects where intellectual property rights are a concern for the organization. Typically, if new employees would be asked to sign a non-disclosure agreement, an intern may be asked to do so as well.

**Benefits and Insurance**
Since internships are short-term in nature, benefits are not typically offered to interns. Most students will already have medical insurance coverage through their colleges or universities, or will be covered under their parents’ policies. However, the employer’s general liability policy usually applies to interns, as well.

**Transportation**
Employers should identify the need for personal transportation in the internship position description. Interns are responsible for transportation to and from the internship experience. Some employers may choose to provide a transportation allowance to help defray the costs of commuting.

**Dismissal of an Intern**
Dismissal of interns should only occur in cases of major misconduct (theft, assault, use of controlled substances in the workplace, etc.) or instances of significant willful violation of policy after prior instruction.

Contemplated dismissal of an intern should be reviewed in advance by high-level management. The supervisor recommending dismissal must be able to clearly articulate in writing the reason(s) for dismissal.

**Notifying the College/University**
The college or university career center should ideally be involved. The career center may refer the student to the Dean of Students (or equivalent department) if the issue involves misconduct, also refer the issue to the faculty member associated with the internship, if needed.
Should we offer academic credit?
Yes, organizations should allow academic institutions to review internship positions for credit-worthiness. Offering this enhances the quality of the experience and makes the internship more attractive to students. The student should be responsible for making all arrangements and relaying any information from the college/university advisor. In most cases, the paperwork is minimal and is not time consuming.

Should I offer an orientation?
Yes. The orientation may be as simple as a brief meeting on the first day of an internship to discuss the vision of the company, set goals, and discuss logistics (parking, technology, security, and the best place to eat lunch). Many companies offer a longer orientation which may include time with the executive in charge, a tour of the facilities, training, and lunch.

Should I give the student a post-internship review?
Most professors or advisors require a post-internship review to receive college credit. Additionally, the post-internship review may be the first professional evaluation that a student has received, which can be extremely valuable.

How long is the average internship?
An average internship is 3-4 months coinciding with a student's typical semester or summer.

How many hours a week is the average internship?
During the summer, full-time positions are common. If a student is enrolled in classes during the school semester, a position should be no longer than 15-20 hours a week.

How much should I pay my intern?
Payment is very important to set your position apart to attract the best candidates. The following link can help you determine the going rate for interns:

If I want a summer intern, when should I start looking?
The most competitive Fortune 500 companies do their heaviest recruiting during January when students return from winter break (some even begin in the fall). Smaller companies conduct their summer intern search in March or April when plenty of good candidates are still available.

What benefits are students most interested in?
In this general order:
• Challenging work scope and a well-defined internship project
• An engaging company culture and competitive organization
• Access to high-level executives and industry leaders (opportunities to network with various individuals in the office)
• Professional development training whether in skills or industry specific software (for example: Salesforce, QuickBooks, Basecamp, and more)
• Monetary Benefits (salary, stipend, travel expenses)
• Interesting Perks (Company trip to Orlando expo...)

Setting Goals

The intern and the supervisor should discuss the following topics. This will help them agree to and define expectations, actions and roles during the internship. Additional pages may be added if needed.

1. How will performance be evaluated?

2. What do you hope to experience or learn during this internship?

3. What type of projects will the intern be assigned to gain the experience outlined in the aforementioned goals?

4. What is expected from the school to ensure the intern receives credit (if applicable)?

Other Goals:

The Student Intern Agrees to:

- comply with the organization's policies and procedures;
- follow protocols for dress, appropriate behavior, correspondence and work space maintenance;
- complete any necessary training prior to the internship;
- attend the internship site during scheduled work dates/times, notifying supervisor of absence or late arrival with sufficient notice prior to start time;
- meet school requirements to receive academic credit (if applicable);
- perform responsibilities timely and satisfactorily; and
- inform intern supervisor of any problems or concerns.

The Supervisor and Organization Agree to:

- comply with the U.S. Department of Labor policies on paid/unpaid internships;
- adhere to all state and federal child labor laws; provide a safe work zone;
- conduct appropriate training for the student prior to the internship;
- assign an intern mentor for the student;
- establish a set work schedule and lesson plan for the student;
- provide the student with periodic feedback and constructive criticism;
- ensure the student’s learning goals are addressed;
- meet school requirements for student to receive academic credit (if applicable); and
- compensate the student according to agreed-upon rate.

We have discussed the topics listed above, and understand our roles, expectations and requirements during the term of this internship.
